HOW TO DESIGN POSTERS

Please review this video on YouTube about improving poster formatting.

<https://www.youtube.com/watch?v=1RwJbhkCA58&t> The video is 20 minutes long. The how-to section begins at 11 min. 30 sec. This method aims to both make it easier to create a poster and to make the poster better at conveying information to attendees. You are not required to adopt this method of poster design, but if you do, we would love your feedback after the conference on whether it was a better experience for you. annualmeeting@obesity.org
